

Inpatient vs Outpatient

Place of Service Feature from Valenz Bluebook

When comparing estimated out-of-pocket costs, the amount you're responsible for paying can vary depending on the type of appointment and whether the procedure is inpatient or outpatient.

Valenz Bluebook's Place of Service feature allows you to recalculate your estimate for inpatient vs outpatient procedures, when applicable, so you can see the most accurate estimated out-of-pocket cost.

How It Works

1. Log in to **myEVHC.com** and click **Valenz Bluebook** in the **My Links** section.
2. Search by procedure, doctor, or hospital.
3. See the **Fair Price™** you can expect to pay. Select the place of service to update your estimate if applicable.
4. Choose a provider
5. Celebrate your savings!

Out of Pocket Cost Estimate

Your out-of-pocket cost estimate is calculated based on deductibles, coinsurance, and copayments for covered services—expenses for medical care that are not reimbursed by insurance.

The amount you are responsible for paying may differ based on the type of appointment or the place of service at which you receive care. This service is typically billed as Inpatient. You may recalculate your out-of-pocket cost estimate by selecting a different option from the dropdown.

Important Disclaimer: The out-of-pocket estimates are many factors. Your actual cost for the service may be different, as there are many factors that can affect your out-of-pocket estimates. It is recommended you obtain a cost estimate at this time.
