

Treat that rash **in a flash**

If you're experiencing one of these skin rashes, Teladoc Dermatology can help. Our board-certified dermatologists are available by app or web and can respond to your visit request in days, not weeks.

Upload three photos of the affected area and you'll receive a diagnosis and treatment plan within two business days. In addition to rashes, our dermatologists treat acne, moles, rosacea, psoriasis, and more.

Here are give common types of rashes:

- Poison Ivy
- Shingles
- Tick bites
- Eczema, or atopic dermatitis
- Athlete's Foot
